

Name: Alan T. Cloutier, P.E./PTOE

Business Address: Fay Spofford & Thorndike
5 Burlington Woods
Burlington, MA 01803

Business Title: Senior Engineer

Education: M.S., Civil Engineering, Northeastern University, 2003
B.S., Civil Engineering, University of Massachusetts, Dartmouth, 1998

Work History: I have been a transportation engineer for twelve years, having worked for multiple consulting firms. My work has involved a wide range of projects both for public agencies and private developments including studies, conceptual improvements and design plans.

Positions held for ITE/Accomplishments:

- Continuing Education Committee (Chair 2010 & 2011, Vice Chair 2009)
- NEITE Chronicle Editorial Team (2004 & 2005)
- Created Facebook page for 2010 ITE District 1 Annual Meeting

Professional Registrations: Registered Professional Engineer in Massachusetts and a certified Professional Traffic Operations Engineer.

Goals, I would like to achieve: As everyone reading this knows, New England ITE is an important organization and a valuable resource for our members. Between networking opportunities, information sharing and continuing education, NEITE provides benefits for those that take advantage of it. To provide these opportunities requires the commitment and effort of the NEITE board and committee chairs. Having served as the continuing education committee and attended the board meetings for the last three years, I understand the commitment and work that is necessary by members of the board.

My goals as Director for 2012 are:

- Work with committees to provide topics for training workshops and educational opportunities;
- To attract more young members into joining and attending NEITE events;
- Increase public sector attendance at NEITE events; and
- Ensure that members are made aware of the events and opportunities that are offered.
