Professional Registrations: Professional Engineer in Vermont and a certified Professional Transportation Planner.

Goals, I would like to achieve: New England ITE is a volunteer driven organization that provides continuing education, collaboration, information sharing and networking for transportation professionals. Without NEITE, these opportunities may not exist. With these responsibilities, the NEITE Board has a full plate and depends on the commitment of its Directors to guide and carry out its important work. I have served on the Board for many years and understand the challenges to making the organization work.

My goals as Vice President for 2012 are:

- Use my past experience on the Board to help focus its work and decision making;
- Help attract more public sector employees to NEITE events; and
- Assist the president with implementing the strategic plan.
