

Synchro and Simtraffic Training Workshop

Wednesday, May 22th, 9am to 4:30pm, as part of the
ITE Northeastern District Annual Meeting

Start your District 1 Annual Meeting with an excellent Synchro workshop. Or if you can't stay for the meeting, you can register for the workshop only. Trafficware will be teaching the course, which will include the two three-hour courses below.

Cost: \$175

6 PDH's

Calibrating SimTraffic

The focus of this course is for users to gain a better understanding of how SimTraffic's traffic flow model operates. Each of the key model parameters is highlighted and discussed. Several Case Studies are highlighted to demonstrate the calibration process.

HCM 2010 & Synchro

With the release of the 2010 HCM, several of the current methodologies used for analyzing traffic operations have been modified. The focus of this course is providing an overview of the HCM methodologies and how they were implemented within Synchro.
